## Maple Mystery

## Forensic Fingerprints

What makes fingerprints so important to forensic science? We'll investigate how ridges, impressions, and patterns are unique to each person by detecting, identifying, collecting, and examining our own fingerprints

## History of the NWMP

# The Indigenous Peoples Atlas of Canada Giant Floor Map

**SUGGESTED GRADES: 4 TO 12**

The Centre offers three distinct programs using the Royal Canadian Geographical Society's Indigenous Peoples Atlas of Canada giant floor map. We'll learn about the timeline and locations of Residential Schools in Canada, the different types of treaties, and gain insights into the connection Indigenous Peoples have with the land on our giant Indigenous Peoples Atlas of Canada Floor Map, created by the Royal Canadian Geographical Society.

## TREATIES

Students will learn about the different types of treaties (modern and historic) and land agreements in Canada and their relevance today. They will learn to recognize and acknowledge the traditional territory they live on. They will use the timeline of the Indigenous Peoples Map to explore the treaty-making process in Canada.

## RESIDENTIAL SCHOOLS

Students will explore historical relationships between Indigenous and non-Indigenous people in Canada. Using the Indigenous Peoples Map they will study the distribution of Residential Schools in Canada. They will be introduced to the Residential School timeline. They will reflect on the multi-generational consequences of Residential Schools.

Why are Indigenous women, girls' and two-spirit people at a higher risk of going missing and being murdered?

While this is a disturbing and upsetting topic, it is important to examine and discuss.
